

CONTENTS

ARCHITECTURE THEORY AND HISTORY, HISTORICAL AND ARCHITECTURAL HERITAGE RESTORATION AND RECONSTRUCTION	
Aitov R.R., Afanasyeva E.A. The traditional coloring of the Tatar rural houses in modern conditions	7
Ashirova M.V., Aidarova G.N. Rapid Response Architecture: the concept of temporary mobile housing in large cities	17
Kinosyan N.S. Theoretical and practical contribution into the architecture of country houses of the post-war reconstruction building	23
Kramina T.A. The evolution of architectural and constructive solutions of industrial buildings. The experience and lessons	30
Lisitsyna A.V. The historical and architectural environment of «border» towns of Nizhny-Novgorod region of the river Volga	39
Mirsayapova I.I. Three waves of the theoretical design	49
Nadyrova D.A. Profitable houses of Kazan of the end of XIX-beginning XX centuries, as a multi-functional complexes	57
Fachrutdinova I.A., Efimov D.D. Public architecture of the soviet modernism period as a topical issue for research of regional architectural heritage (60-80-ies of the 20th century)	64
HOUSES ARCHITECTURE. THE CREATIVE CONCEPT OF ARCHITECTURAL ACTIVITIES	
Zhelnavskaya L.V., Rodionovskaya I.S. Some methods of ecological protection of the kindergarten architectural environment in the megacity cramped conditions	72
URBAN DEVELOPMENT, RURAL SETTLEMENTS PLANNING	
Dembich A.A., Zakieva L.F. The formation of medical clusters in Kazan functioning as «growth points» of the medicine in the region	79
Narbekov M.F. Urban planning and development of Baku and Baku Agglomeration (end of 1930s-2015)	87
BUILDING STRUCTURES, HOUSES	
Badertdinov I.R., Kuznetsov I.L. Optimal geometrical parameters of trihedral steel support's cross section	95
Kupriyanov V.N., Altapov S.R. Modeling of wind actions by changing of a form of the building	100
Ladnushkin A.A., Avhadeev R.R., Hasanov R.M., Sadykov R.R. Modernization of industrial chimneys of oil production complexes	105
FOUNDATIONS, UNDERGROUND STRUCTURES	
Mirsayapov I.T., Sharafutdinov R.A. Bearing capacity and precipitation of soil foundations reinforced by vertical and horizontal elements	111
HEATING, VENTILATION, AIR CONDITIONING, GAS SUPPLY AND LIGHTING	
Akhmerova G.M., Fedorov A.V. The influence of soil moisture on heat losses of pipes in the impassable channels	117
Barysheva O.B., Khabibullin Iu.Kh., Belyaeva E.E. The effectiveness of the use of exhaust transformer oil in heating system of non-residential premises	122
Broyda V.A. The expediency of the air conditioning system with cold accumulation	127
Volodin Yu.G., Hannanov R.R. Mathematical modeling of the worker process in gas canal for the boiler aggregate TGM-84	133
Posokhin V.N., Ziganshin A.M., Gorohova A.Y. About natural convection over the horizontal heat sources	140
Posohin V.N., Kareeva J.R. About pressure loss at jet flow in limited spaces	146
WATER SUPPLY, SEWERAGE, WATER CONSERVATION CONSTRUCTION	
Buserev A.V., Selyugin A.S., Urmitova N.S., Kayumov F.F. To the question of cleaning oily wastewater in hydrocyclones installation with coalescing packings	152
Urmitova N.S., Abitov R.N., Khisameeva L.R., Nizamova A.Kh. Motion of a viscous liquid in the pores of the coarse granular coalescing nozzle with a linear resistance law	159
BUILDING MATERIALS AND PRODUCTS	
Galeev R.R., Abdrahmanova L.A., Nizamov R.K. Expanded perlite sand: the modification factors in PVC-compounds	166
Ermilova E.U., Kamalova Z.A., Rakhimov R.Z. Hybrid cements based on metakaolin with low content of Portland cement	172
Eruslanova E.V., Krasnikova N.M., Khozin V.G. No warm-lightweight concrete on the basis of nano-modified dry mixtures for foam	179
Morozova N.N., Hamza Abdulmalik Qais Getting high fine-grained concrete with the use of natural zeolite	185
Mukhametrakhimov R.Kh., Galautdinov A.R., Dikina A.N. The technology of manufacture and installation of modified gypsum plates	194
Potapova L.I., Furer V.L., Kovalenko V.I., Tsagolova E.I. Analysis of IR-spectra of para-tert-butylcalix[6]arene	201

Stroganov V.F., Amelchenko M.O., Lygina T.Z., Naumkina N.I. Possibility of regulation of technological and performance characteristics styrene-acrylic paints and lacquers materials filled by kaolins of different types of activation	207
Khaliullin M.I., Gaifullin A.R., Rakhimov R.Z. Complex influence of the components on the basic properties of artificial stone based on clinker without gypsum composite binders	212
Khamatova A.R., Khohryakov O.V. The electro-steel-smelting slag JSC «Izhstal» for cements of low water demand and concrete on their basis	221
CONSTRUCTION TECHNOLOGY AND ORGANIZATION	
Ibragimov R.A., Salimova G.R. Analysis of the duration of the construction of modern large-panel residential buildings in Kazan	228
Mudrov A.G. The ways of intensification of processes of construction technologies	233
Mukhametrakhimov R.Kh. Manufacturing technology and organization of production of cement-fiber plates	241
Khasanov R.M., Ladnushkin A.A., Sadykov R.R., Avhadeev R.R. Spatial mounting systems in the reconstruction of the main building of enterprises of the energy supervision	247
ROADS, SUBWAYS, AIRPORTS, BRIDGES AND TUNNELS DESIGN AND CONSTRUCTION	
Nikolaeva R.V. Suggestions for road design taking into account the driver perception of road conditions	252
ECOLOGICAL SAFETY OF CONSTRUCTION AND MUNICIPAL ECONOMY	
Barysheva O.B., Khabibullin Iu.Kh., Melnik A.E. Development of a method for processing solid waste using hot technology	259
COMPUTER SCIENCE, COMPUTER FACILITIES AND MANAGEMENT (in building)	
Gumerova L.V., Gumerov A.V. The strength that occurs when driving vortex filament around a circular cylinder	265
Rules of representation of materials for the publication in scientific journal «Kazan State University of Architecture and Engineering news»	273
